**AMENDMENT TO THE CLAIMS**

This listing of claims will replace all prior versions and listings of claims in the application:

**LISTING OF CLAIMS**

Claim 1 (currently amended): A gardening rake comprising:  
a grip;

~~an extended pole, which is provided at one end of the grip;~~  
~~rake heads, which are provided at the end of extended poles and constructed of several spaced talons. The features includes:~~

~~various talons of the rake head are designed with T shaped head.~~  
~~an extended pole having a first end mounted on the grip;~~  
~~two rake heads each having a first end mounted on a second end of the extended pole and provided with a gear wheel and a second end provided with a plurality of spaced talons each provided with a T-shaped head;~~

~~a clamping device mounted between the extended pole and the rake heads to control clamping or unfolding of the rake heads and including:~~

~~a fixation base mounted on the second end of the extended pole and having a pivot notch for mounting the gear wheel of each of the rake heads;~~

~~two bolts each extended through the fixation base and the gear wheel of a respective one of the rake heads so that the gear wheel of each of the rake heads is pivotally mounted on the fixation base;~~

~~a transmission mechanism extended through the pivot notch of the fixation base and having a rim that gears into the gear wheel of each of the rake heads, wherein the transmission mechanism has an inner side formed with a screw hole;~~

~~a spring mounted between the inner side of the transmission mechanism and a fixation wall of the fixation base;~~

~~a withhold handle mounted on the grip and having an open hole;~~

~~a linkage bar mounted in the extended pole and having a first end provided with a screw head screwed into the screw hole of the transmission mechanism and a second end provided with a screw end extended through the open hole of the withhold handle into the withhold handle;~~

Serial No. 10/785,038

a screw nut mounted in the withhold handle and screwed onto the screw end of the linkage bar to fix the linkage bar on the withhold handle.
